

## How to: OPAC OTH Library Amberg

Via our library website (<https://www.oth-aw.de/bib>) you can access our library catalogue or OPAC (Online Public Access Catalogue). Here you can browse our library stacks, reserve books or order books via inter library loan.

You can also log into your library account. (When should I return my books? Can I renew the loan period?)

The screenshot shows the OPAC website interface. At the top left is the logo and name 'OPAC Hochschulbibliothek Amberg-Weiden'. A navigation bar contains 'Suche', 'Merkliste', 'Konto / Verlängerung', and 'Weitere Angebote'. The 'Konto / Verlängerung' menu item is circled in red. On the right, there is a language selection 'Sprachauswahl: deutsch' and an 'Anmelden' button, also circled in red. Below the navigation bar is a search input field labeled 'Sucheingabe'. The search criteria are set to 'Suche in allen Feldern'. The search terms are: 'und Titelstichwort(e) wissenschaftliche arbeiten', 'und Verfasser Lehmann', and 'und Schlagwort'. The 'wissenschaftliche arbeiten' field is highlighted with a green box. An orange arrow points from this box to the search criteria. Below the search criteria are buttons for 'Zurücksetzen' and 'Suchen'. To the right of the search area is a 'Fragen?' button. Below the search area is a section 'Suche eingrenzen' with radio buttons for 'genaue Suche' (selected) and 'auch ähnliche Begriffe finden'. Below this is a dropdown menu for 'Aktuelle Zweigstelle' set to 'OTH-Bibliothek Weiden'.

More possibilities for searching effectively:

Truncation using the asterisk (\*) is helpful if too few or no results at all are found:

e.g. „Kugel\*“ will show results for „Kugellager“, „Kugelradius“, Kugelschreiber“

→ There’s many possibilities for how the word you’re looking for might end — therefore you’ll get a wide range of results by using this method!

→ **Tip:** Start by truncating, then limit the number of results using filters (that way you’ll simultaneously get wide coverage while maintaining a manageable amount of results).

Good luck with your research! 😊
